# Skilling Scenario, NEP & Employability

- India, as one of the world's youngest countries, boasts over a striking 54% of the population under 25 years. It's crucial to furnish its workforce with the necessary skills and knowledge, enabling significant contributions to the country's economic expansion.
- Presently, a major hurdle for the Indian industry is the scarcity of skilled graduates, stemming from the uneven quality of education among Indian youth and the lack of effective implementation of the NEP 2020 guidelines.
- NEP-LEAP (Learning & Employability Acceleration Partnership) will make your institution future ready with the unparalleled synergy National Centre for Skill Development & Entrepreneurship (NCSDE) certified by Scope Global Skills University (SGSU) & AISECT Learn.
- AISECT's four decades of skilling and education excellence with more than 26 lakh students skilled, 100,000+ jobs created, will ensure seamless NEP integration, industry-aligned skill development, and graduation with job-ready competencies.

# Challenges In NEP Implementation, Skills & Employability

**30%**

Less than 30% of Institutions are NEP aligned

**2.3%**

Only 2.3% workforce has formal vocational skills.

**42%**

Only 42% of graduates are employable

**Accelerate  
NEP  
Implementation**

**Integrate  
Skills in Education  
Curriculum**

**Embed Employability  
Programs**

**Solution**

# Need of NEP-LEAP for Institutions

# Objective of NEP-LEAP

- **Develop and implement provisions of National Education Policy (NEP), skills and employability in your institution.**
- **Develop a curriculum that integrates credit-based courses in collaboration with AISECT Learn, aligned with the NEP standards, and includes pertinent modules for skill development.**
- **Establish partnerships with industry leaders to design and offer workshops, internships, and real-world projects for hands-on experience.**
- **Evaluate and track students' progress through regular assessments and feedback loops to ensure continuous improvement in NEP skills and overall employability.**
- **Organize a placement campaign within your educational establishment.**

## Supported By:

# Launch NEP-LEAP Embedded Curriculum

Example: BBA with NEP Courses & Internships
